

ComfortJet seat map

ComfortJet trains will start operating some Berlin-Prague departures from September 2024. Eventually they will be 9 car trains including two first class cars and a small restaurant. However, initially they will be formed as shown here, as 8 cars with one 1st class car and an older restaurant car attached at one end.

To find out whether your train is composed of older EuroCity cars or new ComfortJet cars, search for your train number on www.vagonweb.cz/razi/.

The car numbers I have used here are simply 1, 2, 3 in the order the cars are marshalled. Actual car numbers used by the reservation system will be different, e.g. 255, 256.

You cannot tell which way round each car will be so cannot tell which seats face forward.

Car 1: 2nd class end car with bike spaces

Cars 2, 3, 4 & 5: 2nd class

Car 6: 2nd class with wheelchair spaces & accessible toilet

Car 7: 1st class

Car 8: 2nd class end car with bike spaces

This will eventually be replaced by another 1st class car with a driving cab for push-pull operation.

Car 9 = classic restaurant car.

This will eventually be replaced by a modern restaurant car marshalled between the 1st & 2nd class cars.
